

Characterization of post-translational modifications in cellular signalling

20 – 27 April 2017 | Odense, Denmark

Post-translational modifications

pathway
cross-talking
phosphorylation
SMAC
signaling
quantitative
acetylation
analysis
chromatography
dynamics
peptides
oxidation
enrichment
instrumentation
MAC
O-GlcNAcylated
proteomics
laboratory
Mass
glycosylation
regulation

ORGANIZER

Martin Roessel Larsen

Department of Biochemistry and Molecular Biology, University of Southern Denmark, DK

CO-ORGANIZERS

Daniel Kolarich

Max Planck Institute of Colloids and Interfaces, Potsdam, DE

Karin Hjernø

Department of Biochemistry and Molecular Biology, University of Southern DK, DK

Philip Robinson

Children's Medical Research Institute, The University of Sydney, Sydney, AU

REGISTRATION

Application deadline

1 February 2017

Abstract submission deadline

15 March 2017

Students / Postdocs 400 EUR

Academics 400 EUR

Industry 1000 EUR

SPEAKERS

Martin Roessel Larsen

Department of Biochemistry and Molecular Biology, University of Southern DK, DK

Karin Hjernø

Department of Biochemistry and Molecular Biology, University of Southern DK, DK

Philip Robinson

Children's Medical Research Institute, The University of Sydney, AU

Daniel Kolarich

Max Planck Institute of Colloids and Interfaces, Potsdam, DE

Katarzyna Kulej

Perelman School of Medicine at the University of Pennsylvania, US

Giuseppe Palmisano

Department of Parasitology, ICB, University of San Paolo, BR

Adelina Rogowska-Wrzesinska

Department of Biochemistry and Molecular Biology, University of Southern DK, DK

Simone Sidoli

Perelman School of Medicine at the University of Pennsylvania, US
