

Molecular mechanisms of developmental and regenerative biology

25 – 27 November 2026 | Bangalore, India

ORGANIZERS AND CO-ORGANIZERS

Maneesha Inamdar
Institute for Stem Cell Science and
Regenerative Medicine, IN

Bhavana Muralidharan
Institute for Stem Cell Science and
Regenerative Medicine, IN

Marta Shahbazi
MRC Laboratory of Molecular Biology, UK

Srinivas Animireddy
Institute for Stem Cell Science and
Regenerative Medicine, IN

Tomoya Kitajima
RIKEN Center for Biosystems Dynamics
Research, JP

Yukiko Gotoh
The University of Tokyo, JP

Abstract submission

31 July 2026

Registration

30 August 2026

SPEAKERS

Aida Rodrigo-Albors
University of Edinburgh, UK

Aydan Bulut-Karslioglu
Max Planck Institute for Molecular
Genetics, DE

Chun So
National Institute of Biological Sciences,
CN

Di Chen
Tsinghua University, CN

Ian Chambers
University of Edinburgh, UK

Jun Wu
UT SouthWestern, US

Cristina Pina
Sanquin Research, NL

Miki Ebisuya
Technische Universität, DE

Mubeen Goolam
University of Cape Town, ZA

Rajesh Ganapathy
Jawaharlal Nehru Centre for Advanced
Scientific Research, IN

Sara Wickstrom
Max Planck Institute, DE

Satish Khurana
Indian Institute of Science Education and
Research, IN

Srimonta Gayen
Indian Institute of Science, IN

Valentina Greco
Yale School of Medicine, US

Vijay Krishnamurthy
International Centre for Theoretical
Sciences, IN

Yonatan Stelzev
Weizmann Institute of Science, IL

Naomi Moris
The Francis Crick Institute, UK

Claudia Gerri
Max Planck Institute of Molecular Cell
Biology and Genetics, DE

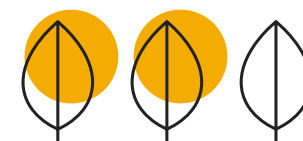

Sundar Ram Naganathan
Tata Institute of Fundamental Research, IN

Maneesha Inamdar
Institute for Stem Cell Science and
Regenerative Medicine, IN

Marta Shahbazi
MRC Laboratory of Molecular Biology, UK

Bhavana Muralidharan
Institute for Stem Cell Science and
Regenerative Medicine, IN
